Dead? Not Dead

Perfect face, panic attack
Missed the mark, can't take it back
Changed the sky, still not free
Lonely where bright lights bleed

Crown passed on, left behind
Smiling hard, going blind
Soft hands by a dying bed
Love keeps watch where sleep has fled

Lights go black
Hearts go blue
Still one hand
Reaches through

Halo on fire
Heart in a chain
Kiss the wound
Love breeds pain
Bright lights lie
Black hearts bloom
Something dead (dead? not dead)
Still kicks the room

Two hearts crash, both keep score
Love still sleeps beside the war
Hungry room, overdue
He smiles so the kids smile too

Scan came back, the room went blue
White coat said the days are few
Mind kept whispering, "rest, release"
Almost mistook the dark for peace

Hearts get lost
Hells get made
Still one vow
Does not fade

Halo on fire
Heart in a chain
Kiss the wound

Love breeds pain
Bright lights lie
Black hearts bloom
Something dead (dead? not dead)
Still kicks the room

Scars don't bind
The soul to pain
Dark skies show
The mind-made chain
...
Wake!

Halo on fire
Heart in a chain
Kiss the wound
Love breeds pain
Bright lights lie
Black hearts bloom
Something dead (dead? not dead)
Now wakes the room

Scars don't bind
Ghosts don't reign
(Dead? Not dead)
Born through flame
(Dead? Not dead)
(Dead? Not dead)
(Dead? Not dead)
